

# GBCA Responsible Product Framework

The vision of the Green Building Council Australia's ('GBCA') Responsible Products Framework is to drive the supply chain to deliver transparent, healthy, low-impact, and net zero carbon products that are part of a circular economy.

The framework is currently used to recognise initiatives that a product or manufacturer can comply with for the purposes of contributing to a Green Star certification. The below entails the Acouflor's initiatives that are officially recognised under this framework.

## Area of Performance

### Credit

Good Practice Products

### Our Contribution

Acouflor Carpet Tiles - Declare 2.0 – Red List Free

## Responsible Finishes

QuietBack™ Carpet Tiles - Environmental Product Declaration (EPD) Product Specific

QuietBack™ & SoftStep™ - Carpet Institute of Australia - ECS Carpet Standard v2.2 Level 4

### Credit

Credit Achievement (3 points)

Climate Positive Pathways - in conjunction with the minimum expectation.

- The building's upfront carbon emissions are at least 20% less than those of a reference building (40% for 6 Star)
- Demolition works are offset

## Upfront Carbon Emissions

### Our Contribution

Refer to GWP figures on Environmental Product Declaration (Table 9)
