**Partner with the  
most trusted team  
in the industry.**

A large group of approximately 20 diverse professionals, including men and women of various ethnicities, are posed in a modern office hallway. They are arranged in several rows, with some standing and others kneeling or sitting in the front. The background shows a well-lit office interior with wooden walls and glass partitions.

**A diverse team  
equipped with  
experience and  
expertise.**

## People

Our success comes from global collaboration with our diverse team of individuals. They are empowered and incentivized to learn and grow.

## Integrity

Integrity underpins all our relationships and actions. We do what we say and say what we do. We build trust with honesty, empathy, and kindness.

## Execute

We always deliver — quickly, accurately, and with the greatest efficiency in the industry.

## Evolve

Never settle. From product to process, we are relentless in our pursuit to innovate and improve.

## Service

We strive to be the easiest to work with. Everything we do is intended to simplify the process and make each customer experience as productive as possible.

# Moving with speed and agility is how we stay ahead.

## 1 – QuickShip 24 HOURS

Our QuickShip offering signifies our commitment to stocking products on the shelf.

If a product is displayed with a QuickShip symbol, this means the product is constantly being produced to replenish stock levels. QuickShip products can be despatched within **24 hours**.

Need it faster? Contact us for our express service rates.

## 2 – Standard 2-3 WEEKS

Our standard is where we ensure raw materials are stocked to allow for quick turnaround of manufacturing.

Our standard made to order products have an approx. **2-3 week** lead time from purchase and order confirmation.

Need it faster? Contact us for our express service rates.

## 3 – Custom 6-8 WEEKS

Original design is like your finger print, and our team of product textile designers, fabricators and project managers are ready to help bring your unique vision to life.

If a product is labelled custom, this means you can play with size, thickness, design, colour, printing and texture. We'll work with you on project drawings, renderings and sampling to ensure the finished product meets your design vision.

Custom products have an approx. **6-8 week** lead time from design sign off, payment and order confirmation.

# With an industry-leading service model, quality product and advanced manufacturing we unite this together into one streamlined process.

## 1 Envision Together

Acouflor opens a world of endless possibilities. Understanding that each space is unique, our design services team embraces a collaborative approach to create a space that is tailored to your project's needs.

Our suite of beautiful, sustainable, and high quality flooring products are engineered to help you realize your design vision and enhance the human experience within any space. Let's join forces to innovate and create.

**This is the methodology behind our Making Quiet promise. Envision, Experience and Deliver.**

## 2 Experience Excellence

Our service culture infiltrates every aspect of our company. Acouflor's high-calibre team are passionate about caring for clients and are renowned for our well-run projects.

Our commitment to detail and unmatched responsiveness is evident throughout every stage of your journey.

From the first pencil sketch to final delivery, we simplify the process for you to harness the benefits of great aesthetics and acoustics.

## 3 Deliver Quickly

Moving with speed and agility is how we stay ahead. Accuracy and time are business critical to your projects, which is why we deliver samples, prototypes, proposals and finished goods with pace.

Our manufacturing experience, continuous process refinements, and bold innovations have made us the fastest, most reliable producer of acoustic products in the world.

**A sustainable  
approach to  
our materials.**

# Converting waste into innovation.

A minimum of 80% recycled content is used in the backing of our carpet tiles. Recycled PET is sourced from bottles that would normally go to landfill, closing the loop on a valuable resource.

## Discarded bottles

Discarded bottles are cleaned and cut into flakes before being extruded into fibres of white colour.

## Regenerated fibres

Regenerated fibres are coloured and made into pellets.

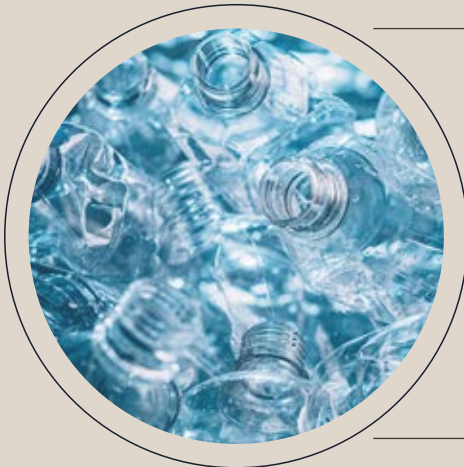

## Recycled PET pellets

Recycled PET pellets are blended with virgin PET ready for processing to form a felt backing in varying thicknesses that will form the backing of our carpet tiles.

## Waste is utilised

Felt backing made from a minimum of 80% recycled PET.

## Recycled bottles per carpet tile.

- **QuietBack™ 7mm**  
46 x 12g PET bottles
- **QuietBack™ 8mm**  
46 x 12g PET bottles
- **QuietBack™ 10mm**  
57 x 12g PET bottles
- **LaidBack™**  
17 x 12g PET bottles
- **SoftStep™**  
37 x 12g PET bottles

# Helping meet your green building goals.

A Nutrition label that displays compliance with stringent criteria for the LBC Materials Petal & Health Interior Performance Imperative.

A products Total Volatile Organic Compounds are tested against internationally recognised standards and 3rd Party Verified through the Carpet & Rug Institute.

Designed to be transparent and inform consumers of the impact manufacturing has on the environment across materials, energy, water and waste streams uncovered through a Life Cycle Assessment of a product.

Providing transparency of product materials that are screened against GreenScreen and Priority Hazard Lists.

Designed to maximise floor coverings useful life and minimise impacts to the environment.

# Our specialist initiatives.

As a business, we can’t deny that the built environment is a major culprit of global emissions. To play our part in tackling climate change, we have re-thought our approach to what a ‘sustainable’ product or practice is, and it all starts with knowing how our materials and operational practices affect the planet and its people.

## Powered by Solar

The use of solar panels attached to key factory locations means that your carpet products are generated using around 30-40% onsite renewables – powered by the sun.

## Environmental Labels

To support green building projects and material transparency. Our label certifications indicate that our products are safe for people and the planet, and can be used to qualify toward green building ratings.

## Carbon Footprint Tracking

To deliver on our mission, 2023 will mark the base year for our carbon footprint, conducted across all areas of the global business. This will help us to set goals for the future, measure and benchmark effectively.

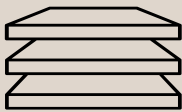

# Carpet tile end-of-life program.

Acouflor is working with the industry on a recycling program that will keep our carpet tiles from landfill. In the meantime, we have partnered with ResourceCo who will process Acoufelt carpet tiles into alternative fuels, giving the tiles a second use as an important energy source.

## Acouflor carpet tiles and install off-cuts can be sent directly to ResourceCo with these simple steps

01

Palettise the tiles and offcuts.

02

Create a new account, or, use your existing account with ResourceCo to book the load, paying \$320 per tonne. (ex gst)\*

03

Drop off the palette at your nearest ResourceCo Recovery Facility.

04

Relish in the good feeling that you’ve diverted carpet tiles from landfill – high five!

\*Fee as of August 2024. ResourceCo have the right to make changes to their fees. This cost is attributed to your business and not Acouflor.

Bringing our  
vision to life.

# Enhancing the acoustic environment.

QuietBack™, SoftStep™, and LaidBack™ unique features and benefits.

## QuietBack™

Our QuietBack™ collections are designed with enhanced sound-absorbing properties, making them ideal for spaces where noise reduction is important, like offices, schools, and residential areas.

With flexible thicknesses ranging from 7mm to 10mm they offer a plush, comfortable feel underfoot, which contributes to a quieter and more relaxing environment.

Fire test method	AS/ISO 9239.1-2003
Critical heat flux	Mean result 4.9kW/m²
Smoke deviation rate	Mean result 187%.min
Total VOC	≤ 0.5mg/m³ or less
Mildew and Odour	Rating = satisfactory

Antimicrobial effectiveness	Rating = <100
-----------------------------	---------------

Backing made from 85% min. recycled PET

Collection.

## Borough

**Borough planks are inspired by the built environment of the world's most inhabitable cities.**

Clusters of buildings and street crossings are replicated in this unique design, created using controlled tension points within a tufted loop pile to give texture, shadow and delineation in the pattern. Comprising six colourways, Borough carpet tiles are designed specifically for superior acoustic performance.

Mojave CA07

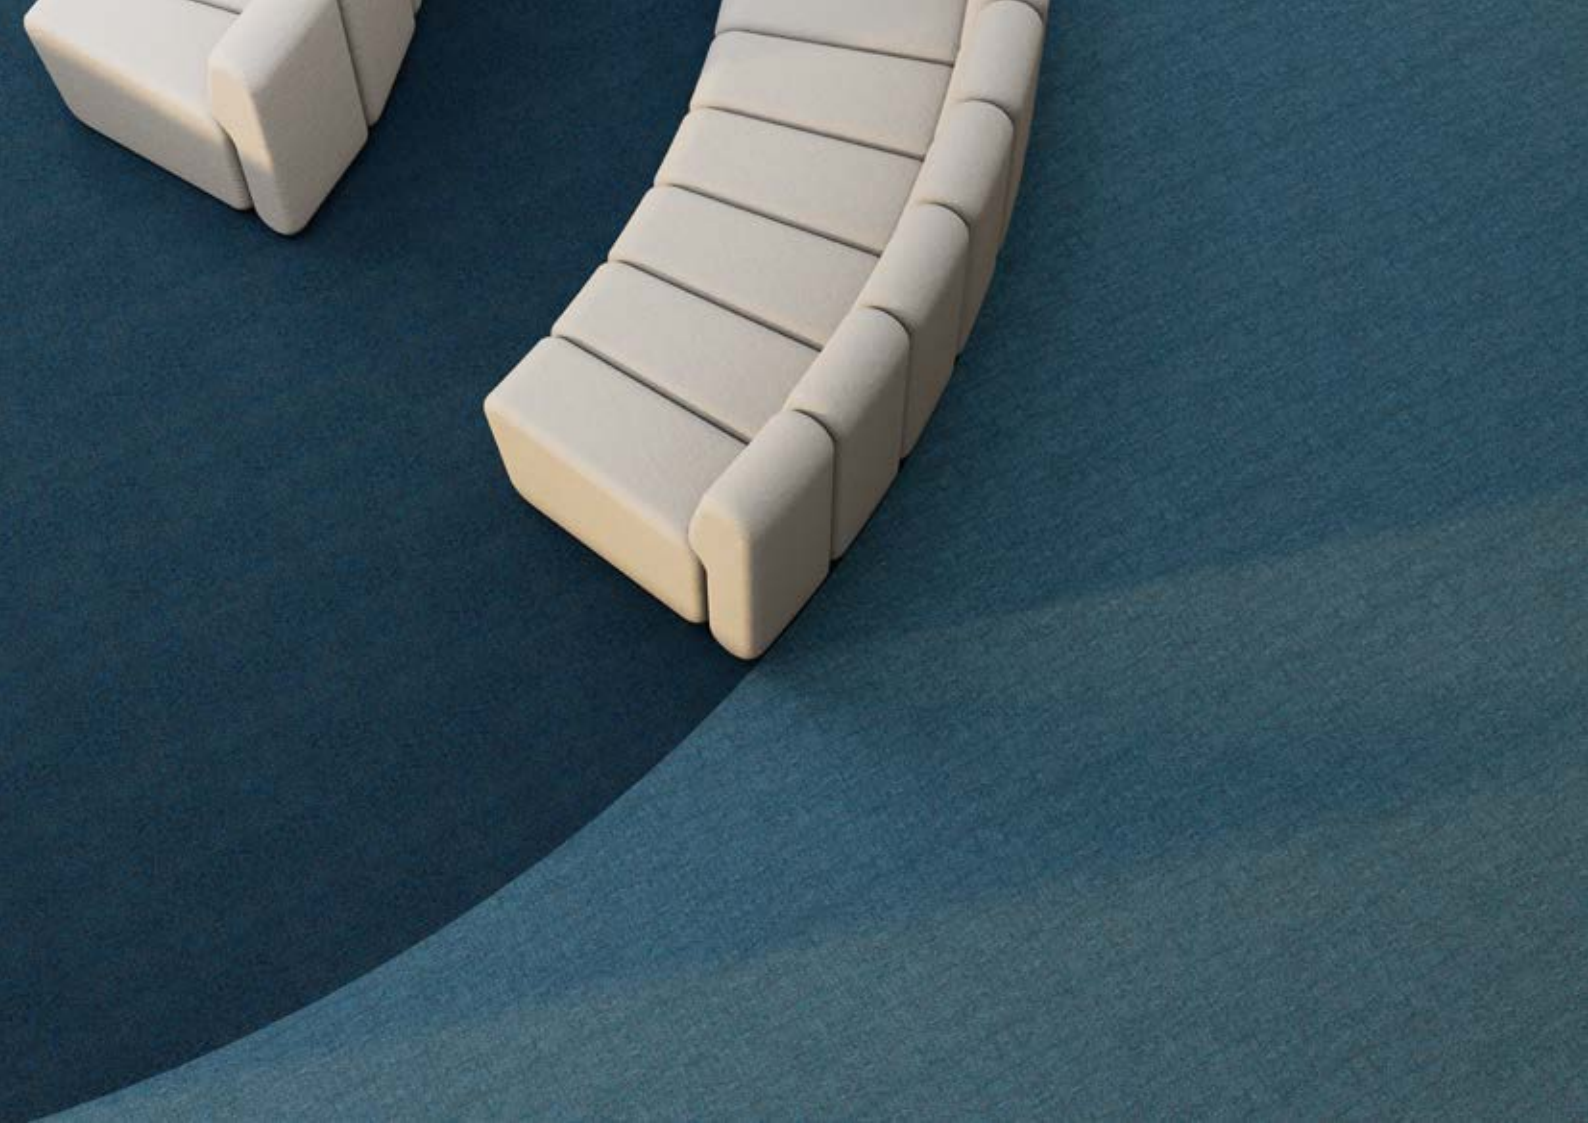

Coyote CA03

Oasis CA04

Limestone CA06

Colorado CA01

# Elemental

Elemental’s individuality leans on the randomness of the colour reflected in the natural environment – making the collection comfortable, grounding and inimitable.

Each tile is made from an original yarn thread-up of 3 complementary colours, woven together to create unique blends across a tonal palette of warms, blues and greens.

# LandLines

**LandLines QuietBack™**  
carpet tiles offer a textural,  
lineal design taken from the  
natural undulations and raw  
tones of the land.

Rich deep blues and blacks punctuate  
the more subtle earthen base of  
silvers and neutral beiges, resulting in  
eight unique colourways.

# Our 24-Hour Sampling Service: Quick Delivery and Expert Selection.

Need carpet samples fast? Look no further. Our 24-hour sampling service ensures you get the perfect carpet swatches right when you need them. With rapid delivery times and a vast selection of high-quality options, we make choosing the ideal carpet for your project a breeze.

Key benefits of our 24-hour sampling service:

- Speed

Receive your samples within 24 hours for timely decision-making.
- Variety

Explore a wide range of carpet styles, colours, and textures to find the perfect match.
- Convenience

Order samples online by visiting [acouflor.com.au/collections](https://acouflor.com.au/collections)
- Assistance

Our knowledgeable team is available to guide you through the selection process.

# Our complimentary design services bring your vision to life.

- 01 – Select your colours and design

Work with our textile designers through our extensive collection of yarn colours and carpet designs. Collaborate with our experts to choose the perfect combinations that match your vision and aesthetic preferences.
- 02 – Create your moodboard

Work with our design team to create a digital or physical mood board. This will help visualize how the selected products harmonize, providing a comprehensive view of your design concept.
- 03 – Visualise your space

We digitally render your selected designs and mood board into a space setting of your choice. This final step allows you to see how the products will look in the intended environment, ensuring satisfaction before making your decision.
