

Book your CPD with Acoufelt

Acoufelt are offering in-person formal CPD presentations for Australian architects, for the following topic(s):

‘Primary Concepts for Achieving Great Acoustics’

This presentation is the perfect high-level introduction to interior acoustics and soundscaping. Written by our team of acoustic design specialists, this information has been distilled into an approachable and readily digestible 40-minute presentation.

THE CPD LEARNING OUTCOMES

- What is sound
- How does noise affect us
- What are the different properties of sound
- What are some common noise problems we face today
- What is NRC and how can we use it to measure acoustic performance
- How can we effectively use acoustic materials to create a great soundscape
- Practical tips on how to treat acoustic challenges in modern commercial, education and hospitality environments.

EVENT FORMAT AS FOLLOWS

Welcome – Attendees are welcomed into the space and sign in with names, emails and registration numbers

Presentation – Attendees are seated to watch CPD video presentation

Quiz – Attendees answer 10 multiple choice questions based on CPD material

Assessment – Assessor marks questions in collaborative session

Wrap Up & Questions (optional) – Attendees are free to chat with our team, ask questions and run through any of our product range

Certificates – ‘Certificate of completion’ will be emailed to all attendees within a week of completing the assessment
