Escape

Featuring QuietBack™

The Escape carpet tile collection is a 100% solution dyed nylon carpet tile in the 500 x 500 square format. Featuring QuietBack™, this carpet tile achieves an acoustic rating of NRC 0.40.

What better way to escape than to the quietness of nature. Close your eyes and escape to your quiet place. Where is it? A Nordic boathouse? An African safari on a shimmering savanna? A towering mountain, a windswept desert or a vast shimmering ocean?

Highlights flicker through the natural colours of water and stone to create a surface that is comforting and familiar. It seems so natural that we feel welcomed and embraced. Water glistening on stone, the natural speckle of granite and sun-drenched ripples on a nearby pond all rush to mind.

Available in nine beautiful colourways, Escape carpet tiles have been designed specifically to provide a superior acoustic performance to that of similar floor coverings.

The Escape carpet tile collection from Acoufelt will help you in your quest toward Making Quiet™ for working, learning and living spaces. By delivering solutions that eliminate compromise, Acoufelt allows you to design for the ears as well as the eyes.
