

Espana

LaidBack™ Carpet Tiles

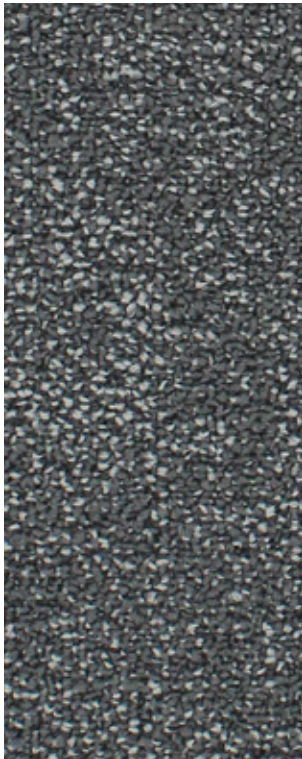

Espana – Armada

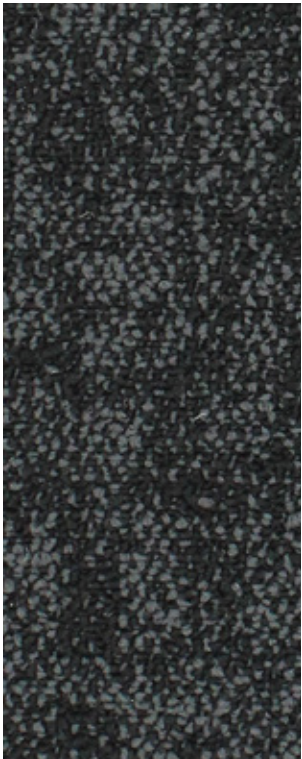

Nature's depth,
translated into texture.

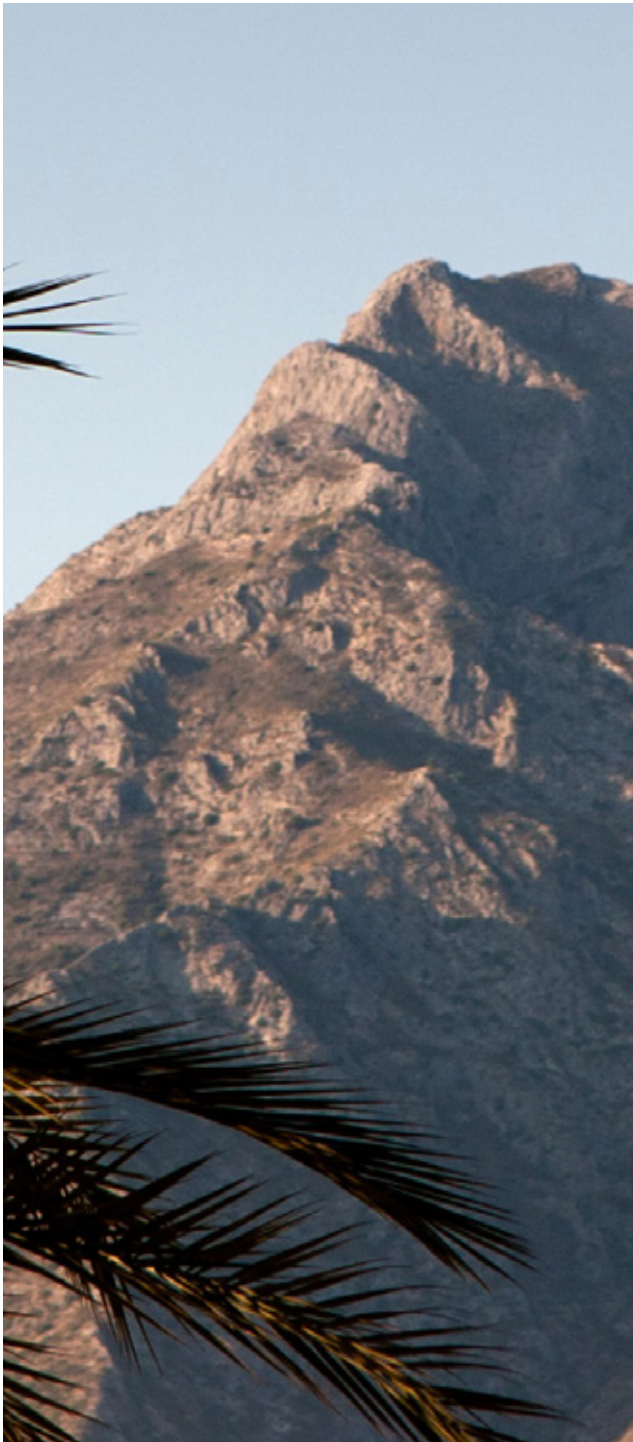

Inspired by the landscapes of Spain, Espana brings the quiet beauty of the natural world into contemporary interiors.

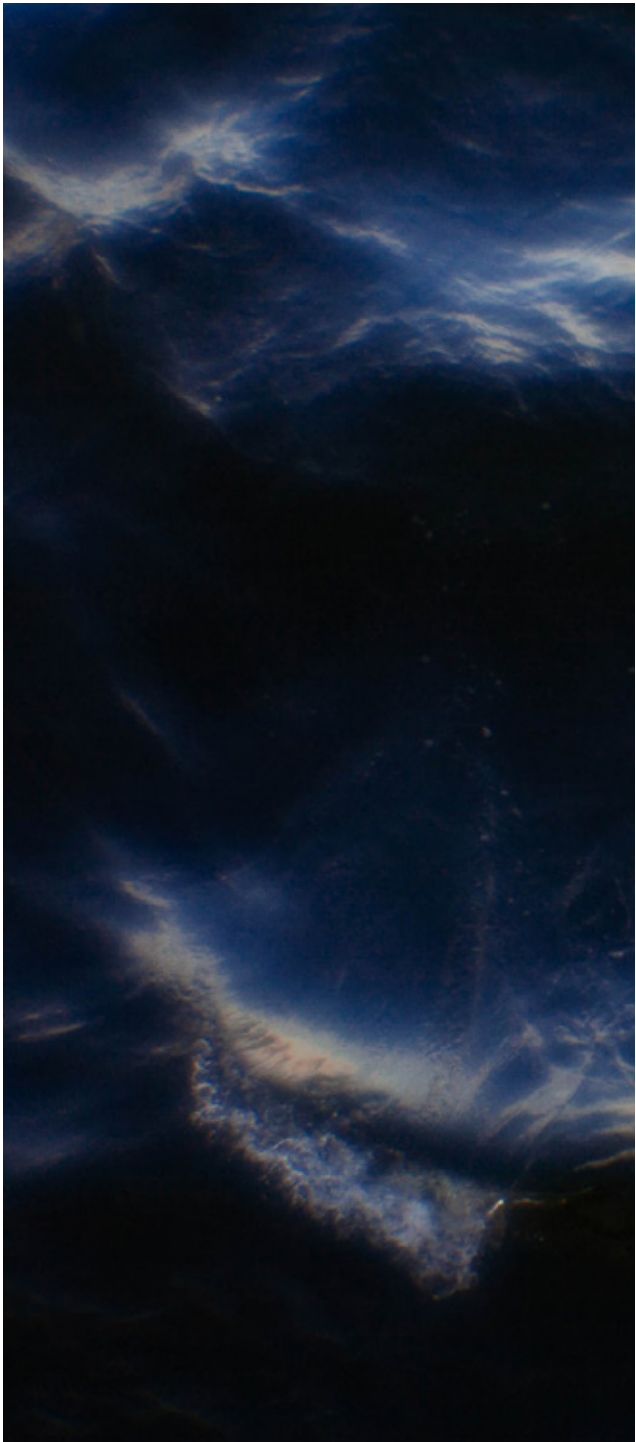

From mist-covered valleys and enduring mountain terrain to shifting shadows and

deep coastal waters, the collection translates these elements into a richly textured carpet design. Subtle variation across the surface creates a sense of depth, giving interiors a grounded, restorative and calm atmosphere.

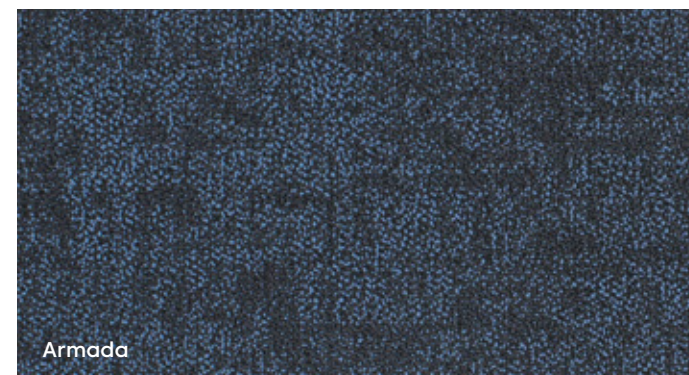

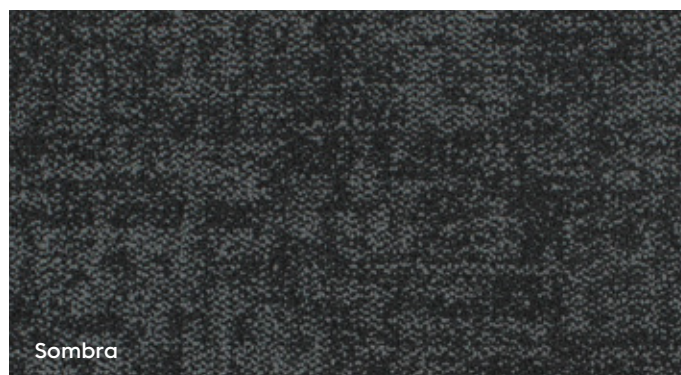

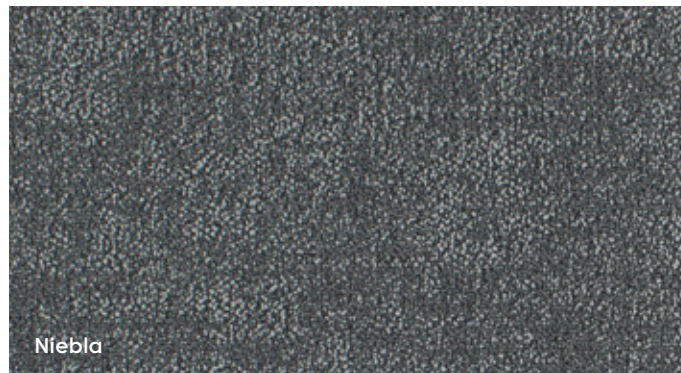

Espana – from morning mist to ocean depths

Espana moves from soft greys to deep navy, with each tone reflecting the natural landscape.

Niebla evokes morning fog, Sombra shifting shadow, Sierra rugged terrain, and Armada the richness of the sea.

Together, the four tones form a versatile palette of texture, tranquillity and understated depth.
