

Material Safety Data Sheet

Product	Acoustic Printed Panel		
Manufacturer	Acoufelt Pty Ltd Adelaide – Level 8, 26 Flinders Street, Adelaide SA 5000 Sydney – Australia Square, Level 43, 264 George Street, Sydney NSW 2000 Phone – +61 1800 626 462		
Material	Non woven polyester fiber thermo bonded compressed felt		
Composition	Component	CAS Number	Content %
	Polyethylene Terephthalate	25308-59-9	99.94%
	Acrylic Ester Monomer	4813-57-4	0.06
Hazards Identification	Based on available information, this material is not classified hazardous		
First Aid Measures	Eye contact: Not applicable Skin contact: Not applicable Inhalation: Not applicable Ingestion: Not applicable		
Fire-Fighting Measures	Suitable extinguishing media: In case of fire, use water spray, dry chemical, carbon dioxide (CO ₂) Unsuitable extinguishing agents for safety seasons: None Explosion danger: None Equipment for fire-fighters: Follow the general precautions rules Specific hazards: Combustible product in melted state. Fire propagation risk due to melted polymer pieces Specific hazards: In case of fire do not breathe fumes or combustion gases. Fire fighters must wear self contained breathing apparatus and full protective suit. Dispose of the fire waste and contaminated water according to the law		

Accidental Release Measures	<p>Individual precaution: No specific measures are necessary</p> <p>Environmental protection: No specific measures required</p> <p>Environmental precautions: Do not inhale combustion gases</p> <p>Additional information: Dispose of the waste according with the law</p>
Handling and Storage	<p>Handling: Not applicable</p> <p>Storage: Keep the product away from heat source, sunlight and flame</p>
Exposure Controls/Protection	<p>Personal protective equipment: Wear standard safety equipments.</p>
Physical and Chemical Properties	<p>Melting point (°C): 110 + 5</p> <p>Flash point (°C): Not applicable</p> <p>Ignition temperature (°C): Not applicable</p> <p>Danger of explosion: Product is not explosive</p> <p>pH value: Not applicable</p>
Stability and Chemical Properties	<p>Chemical stability: At normal condition</p> <p>Condition to be avoided: Extreme heat</p> <p>Dangerous reactions: No dangerous reaction if stored and handled as prescribed</p> <p>Products of decomposition: No information available</p>
Toxicological Information	<p>Toxicity: Not toxic if used according to specifications</p> <p>Skin contact: No irritant effects</p> <p>Eye contact: No irritant effects</p> <p>Carcinogenicity: No carcinogenic</p>
Ecological Information	<p>Biodegradability: Not biodegradable</p>
Disposal Information	<p>Waste: Classified as not dangerous</p> <p>Further indications: Disposal according to laws and local rules</p>
Transport Information	<p>Marine transport: Classified as not dangerous</p> <p>Road/Rail transport: Classified as not dangerous</p> <p>Air transport: Classified as not dangerous</p>
Regulatory Information	<p>Follow all regulations in your country</p>
Other Information	<p>The information given is based on the current level of information available, in accordance with requirement of existing laws and regulations regarding environment, health and safety in relation with the product. They are not to be interpreted as a warranty for specific product characteristics. This form cancels and replaces any previous edition.</p>
