

GBCA Responsible Product Framework

The vision of the Green Building Council Australia’s (‘GBCA’) Responsible Products Framework is to drive the supply chain to deliver transparent, healthy, low-impact, and net zero carbon products that are part of a circular economy. The Framework is currently used to recognise initiatives that a product or manufacturer can comply with for the purposes of contributing to a Green Star certification. The below entails the Acoufelt’s initiatives that are officially recognised under this Framework.

Area of Performance

Our Contributions

*Product Specific

Carpet Institute of
Australia

Responsible Finishes

Environmental
Certification Scheme

Credit

Credit Achievement (3 points)

Climate Positive Pathways - in conjunction with the minimum expectation

Upfront Carbon Emissions

- The building’s upfront carbon emissions are at least 20% less than those if a reference building (40% for 6 Star)
- Demolition works are offset

Our Contribution

Refer to GWP figures on Environmental Product Declaration (Table 9)
