

GBCA Responsible Product Framework

The vision of the Green Building Council Australia's ('GBCA') Responsible Products Framework is to drive the supply chain to deliver transparent, healthy, low-impact, and net zero carbon products that are part of a circular economy. The Framework is currently used to recognise initiatives that a product or manufacturer can comply with for the purposes of contributing to a Green Star certification. The below entails the Acoufelt's initiatives that are officially recognised under this Framework.

Area of Performance

Credit

Good practice products (RPV max 7, GBCA to supply relevant responsible product value)

Responsible Finishes

Our Contribution

Declare 2.0 – Red List Free (3rd Party Verified)

In Progress

Carpet Institute of Australia – ECS Carpet Standard v2.2 level 4
Environmental Product Declaration (EPD) product specific
