SCREENS

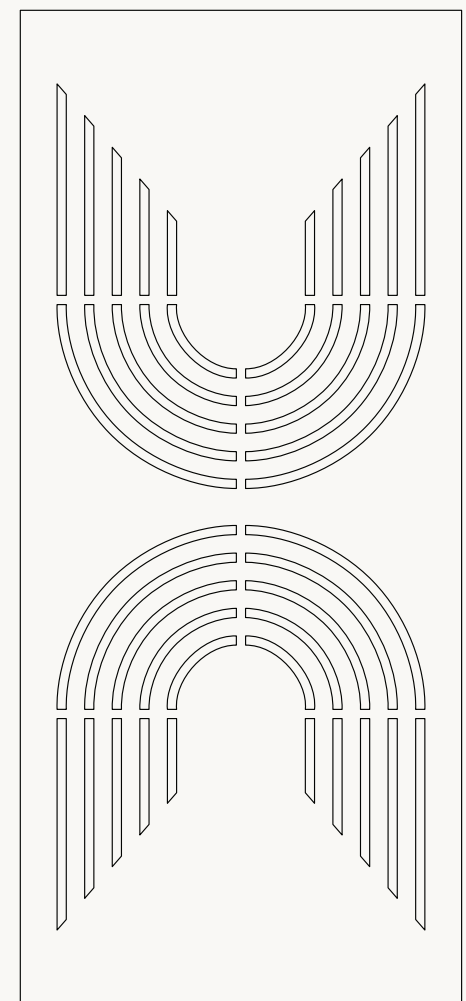

Use our Screens to partition a room while preserving natural light, apply to glass walls and windows to reduce echo, or simply add colour and visual intrigue where desired.

Choose a cut design from our 12 standard patterns, or work with our team to create your own. Available in our full range of FilaSorb™ colours.

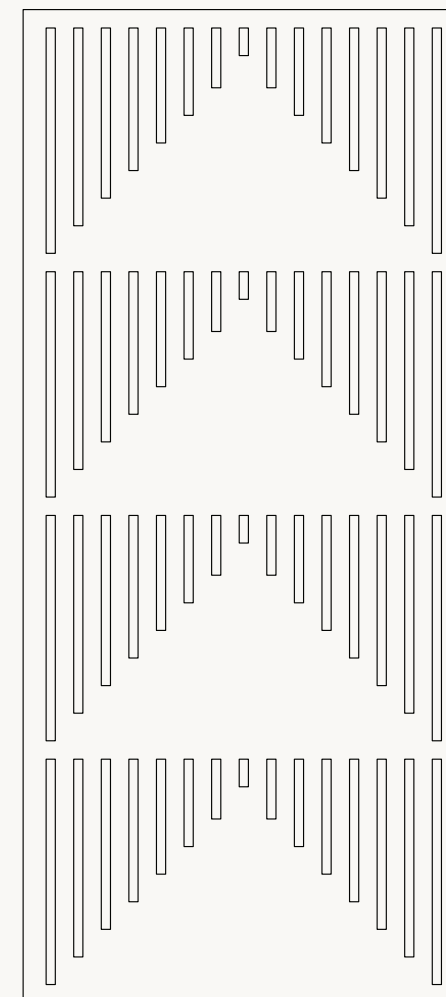

INSIGNIA

TURNTABLE

Screen 'Turntable'

BLIZZARD

Screen 'Blizzard'

DESIGNED TO MEET YOUR GREEN BUILDING GOALS.

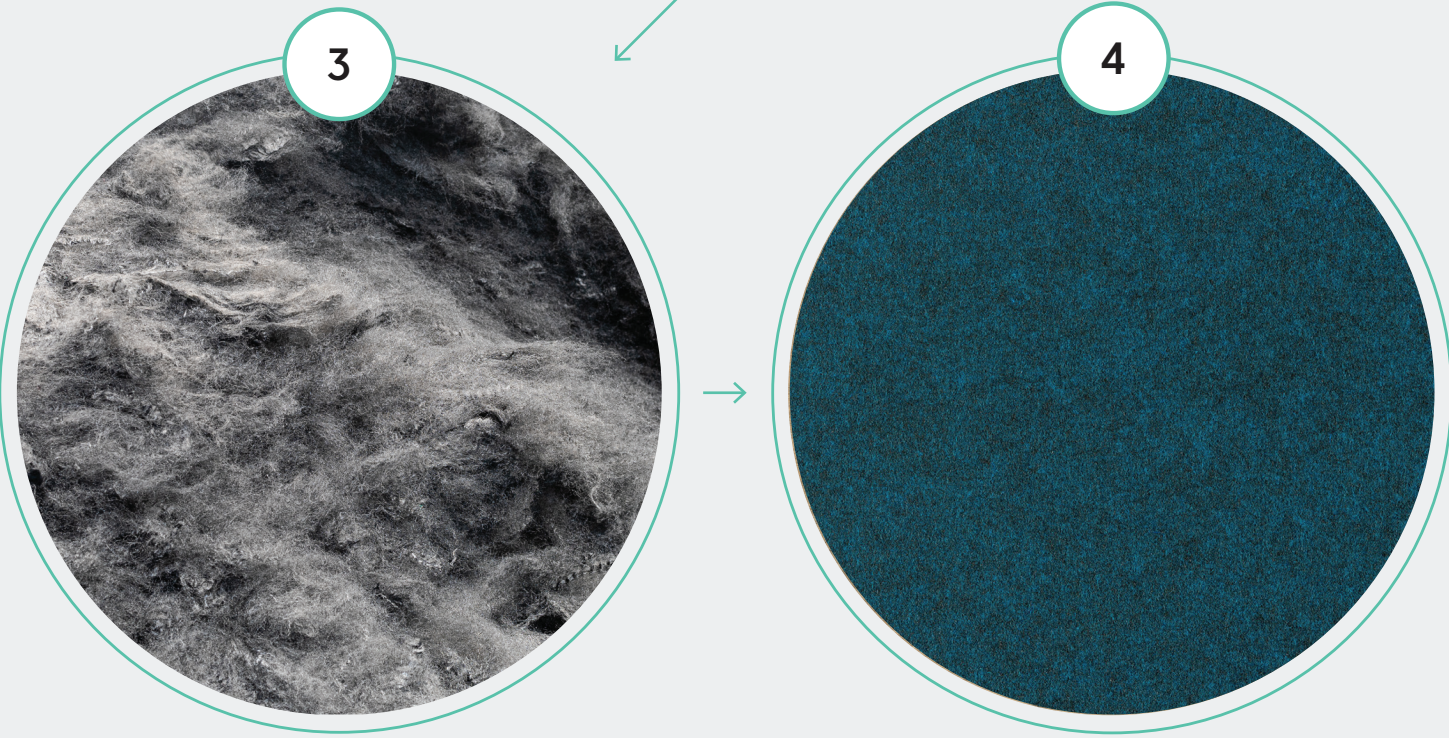

Waste is converted into useful design in the creation of WoodBeQuiet™. Made from a minimum of 60% post-consumer recycled material, each carton contains the average equivalent of 324 x 600ml recycled plastic drinking bottles diverted from landfill.

In addition, planks are produced using 40 per cent solar energy – honed through solar panels on the factory roof – and are fully recyclable at the end of their use. Users can also be assured that planks are certified ‘Red List Free’ – meaning they are free from unsafe, polluting materials.

Acoufelt’s WoodBeQuiet™ planks collection is made from post-consumer recycled plastic drink bottles, diverted from landfill.

The discarded drink bottles are cleaned and cut into flakes before being melted and extruded into fibers of natural white color.

The regenerated fibers are clean and odorless like virgin fibers.

The regenerated fibers are then colored or printed and used to construct brand new products like WoodBeQuiet™ planks.
