

# Click Tile Method

## Installation Guide

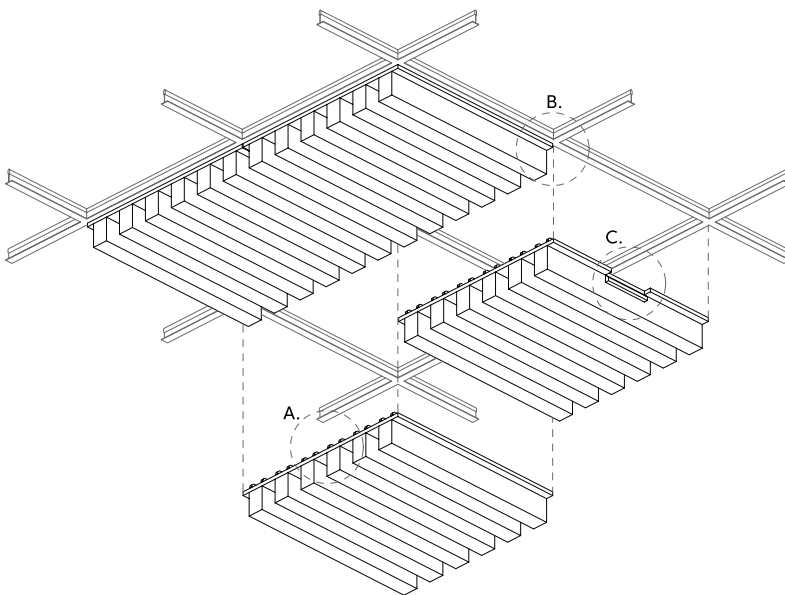

### Installation Method

1. Wear clean white gloves throughout the installation process
2. Once the grid has been installed to the required measurements and height, carefully cut penetrations in the tiles for heat sensors around sprinkler heads and light fittings as required
3. Gently push the ceiling tiles into position until the felt tabs click into place. Slightly wiggle into place
4. Repeat these steps until all tiles are installed

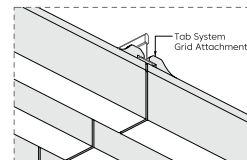

**Note - Before installing your tiles, ensure the grid has been installed in accordance with the local building code.**

### Tools and materials required

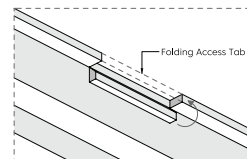

- Clean gloves
- Utility knife
- Straight edge
- Measuring tape
- Ladder or scaffolding

A. Suspension

C. Ceiling Access

B. Tolerance & Reveal
