Urban
Featuring QuietBack™

The great cities of the world provide inspiration for design and beauty. However, they can also be places of relentless noise. Heavy traffic and overpowering crowds provide the background din over which armies of merchants spruik their wares.

Yet in almost every city, there is a quiet and beautiful place where people can find refuge from the business of the city. Out on the harbour in Sydney, in the ancient cobblestone backstreets of Milan, or maybe a blossoming Parisian garden. These urban oases provide the inspiration for the Acoufelt Urban range.

The Urban carpet tile collection is a 100% solution dyed nylon carpet tile in the 500 x 500 square format. Featuring QuietBack™, this carpet tile achieves an acoustic rating of NRC 0.40. Available in nine beautiful colourways, Urban carpet tiles are designed specifically to provide superior acoustic performance to that of similar floor coverings.

The Urban plank carpet tile collection from Acoufelt will help you in your quest toward Making Quiet™ for working, learning and living spaces. By delivering solutions that eliminate compromise, Acoufelt allows you to design for the ears as well as the eyes.
