

WELL International Contributions

WELL is an international performance-based system for measuring, certifying, and monitoring features of the built environment that impact human health and well-being, through air, water, nourishment, light, fitness, comfort and mind. Under the International WELL Building Institute, WELL Certified™ spaces can help create a built environment that improves the nutrition, fitness, mood, sleep patterns and performance of its occupants. The below entails how Acoufelt products can contribute points toward WELL Certification in your building projects.

Criteria

<p>Sound Reducing Surfaces.
